The UK One World Linking Association (UKOWLA) is committed to supporting mutually beneficial partnership links between communities in the UK and in the South (developing countries).

UKOWLA believes that

- creative links between the peoples of the world through exchange, mutual practical support, through development education and advocacy are crucial for world peace
- these links enable people to see themselves and their responsibilities in the context of a diverse complex and interdependent world
- mutual respect for cultural, social and religious diversity is a basic tenet of partnership and that true and lasting friendship is a prerequisite for the promotion of understanding between the people internationally.
- links to other parts of the world can and should be a powerful tool in creating greater social cohesion between diverse communities in Britain.

I/we understand and agree with the above principles of belief to which members of UKOWLA adhere, believe they apply equally to ourselves and our work and wish to apply for membership.
